

Citrus Park
Baseball & Softball

Dear Sponsors:

As we begin our 2021 fall season, we are asking for your support to bring another great year of youth baseball and softball to Citrus Park! Our mission is to promote, develop, supervise, and voluntarily assist in all lawful ways, the interest of those who will participate in our Program.

Through proper guidance and exemplary leadership, our program assists youth in developing the qualities of citizenship, discipline, teamwork, and physical well-being. By espousing the virtues of character, courage, and loyalty, the program is designed to develop superior citizens rather than superior athletes. Our focus is to encourage participation, develop character and discipline, promote teamwork, and advocate citizenship and community pride. We will strive to provide quality instruction in the development of baseball/softball skills, sportsmanship, competitiveness, and fair play.

Your continued support for our league will ultimately help us move forward with our mission statement and allow our community to provide our children a safe activity in a positive learning environment.

Citrus Park Sports Association falls under the Cal Ripken Federal Group Tax Exemption and 501c3 status and Internal Revenue Code 501. Please consider Citrus Park Sports Association for your charitable contributions or advertising ambitions for 2021.

As the Sponsorship Manager of Citrus Park Sports Association, our Board of Directors, Coaches, Parents, and everyone who is involved with our efforts, we extend our sincere gratitude for your support.

Sincerely,

Sponsorship Manager Citrus Park

General Guidelines for Artwork

File Types Accepted: Adobe Photoshop (.psd/.psb/.tif), Illustrator (.ai) and Indesign (.indd). Native files are preferred.

Scale: Art should be set up either Full size (100%) or 1/10 scale (1/10 of Full size)

Example: 6'h x 12'w Banner

Full Size = 72"h x 144"w

1/10 scale= 7.2"h x 14.4"w (the decimal point is always moved 1 place to the left to achieve 1/10 scale.)

Bleed: Provide 1" of bleed each side (see Billboard specs for information about bleed when it comes to billboards)

Example: 6'hx12'w Banner+ 1" bleed each side Full Size= 74"h x 146"w

(1/10 scale= 7.4"h x 14.6"w (the decimal point is always moved 1 place to the left to achieve 1/10 scale.)

Indicate bleed and actual size areas with use of the programs bleed settings (if applicable) or use of guides)

Live (Safe) Area: The area in which to keep all the important information and graphics inside of. Live area is determined by type and size of the finishing required for the final product. Live area is always inside of your actual size (smaller).

Example: 6'h x 12'w Banner with 4 in pockets top and bottom; Hem (1 in) left and right sides.

Measure the size of the pocket (4 in) plus lin (total 5 in) down from the top of the actual size; up from the bottom of the actual size.

Measure the size of the Hem (lin) in from the left and right of the actual size.

Actual size of this banner 6'h x 12'w (72"h X 144"w) Live area for this banner (62"h X 142"w).

Keep all text and logos inside the live area; while the background images/ color will go all the way out to the bleed area.

Color: CMYK color space with U.S. Web coated (SWOP) v2 profile

Call out any PMS Colors (Pantone + solid coated) PMS color matching not guaranteed with Raster files Build

all Blacks as Rich Black C:50/M:50/Y:50/K:100

Resolution: Build raster files at 70-200 dpi full size. When using 1/10 scale build at 700-2000 dpi.

Full Size Examples:

2ft x 4ft (document set up in total inches at 24 in x 48 in) = 200 dpi

4ft x 8ft (document set up in total inches at 48 in x 96 in) = 100 dpi

1/10 size

Examples: 6ft x 12ft (document set up in 1/10 the total inches at 7.2 in x 14.4 in) = 700 dpi 14ft x 48ft (document set up in 1/10 the total inches at 16.8 in x 57.6 in) = 200 dpi (The smaller the final size, the higher the dpi.)

Program Specific Specs

Illustrator & Indesign:

Build the file at Full size or 1/10 scale Include appropriate bleeds

Consider the live area

CMYK color space with U.S. Web coated (SWOP) v2 profile Call out any PMS colors used (Pantone + Solid Coated Series)

Before Submitting Files:

Package the .ai/indd (File / Package) before sending this will collect all the assets/ fonts used in the file into a folder that can be submitted.

Non Packaged .ai/indd files: Convert all fonts to outlines Embed all linked assets *Submitting Files* - send the CSR:

A high-quality print ready file for each item being ordered

A low jpg of each item being ordered - CSRs do not have art programs to review your files with a breakdown of all the sizes, quantities, products with the corresponding art file names

Photoshop:

Build the file at Full size or 1/10 scale

Use the proper resolution for the file size / scale Include appropriate bleeds

Consider the live area

CMYK color space with U.S. Web coated (SWOP) v2 profile

Call out any PMS colors used (Pantone + Solid Coated Series) PMS color matching not guaranteed with Raster files.

Before Submitting Files:

- Embed all linked assets
- Send a layered .psb/.psd or Flatten file and save as a .tif with LZW compression

Submitting Files - send the CSR:

- A high-quality print ready file for each item being ordered. A low jpg of each item being ordered - CSRs do not have art programs to review your files with a breakdown of all the sizes, quantities, products with the corresponding art file names.
